The Refill

Scalable odour control for any restroom

Use the Brain at the entrance door and place 1 Drone in each stall. The Brain's replacement system tells you when to replace both the Brain's and the Drone's air fresheners.

Effective

The unique design uses airflow created by doors. Gradually releases more fragrance than gels or metered aerosols over 30 days.

Easy to maintain

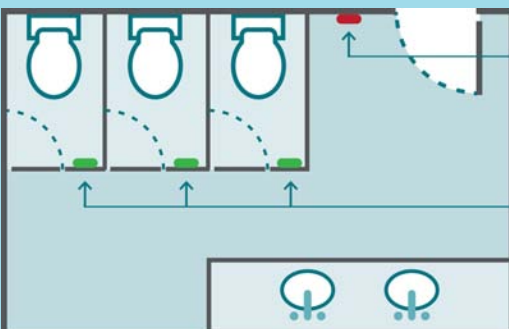

The Brain reminds you when to replace its refill with an LED reminder starting on day 30, and an audible alert that begins on day 34.

Eco Friendly

Each refill is 100% recyclable.
