Disinfect to Defend

In a particularly harsh season for respiratory viruses, the next line of defence starts here.

Liquids

OdoBan Concentrate or RTU

OdoBan is formulated to kill 99.99% of common germs, including influenza A viruses when used as directed. Available in Concentrate or Ready-to-Use options. DIN Registered.

- 11002-G4 OdoBan Concentrate Eucalyptus 3.78 L
- 910059 OdoBan RTU Eucalyptus 946 mL
- 910759 OdoBan RTU Fresh Linen 946 mL

Enviro Care Neutral Disinfectant

EC Neutral Disinfectants have a neutral pH, making them a safe disinfectant for repeated use. Effective against viruses including Influenza A, and other common pathogens. DIN Registered.

- 11258136 EC Neutral Disinfectant 3.78 L
- 11258140 EC Neutral Disinfectant 9.5 L
- 11971036 EC Neutral Disinfectant 3.78 L (frag free)

Aerosols

Offering quick, even coverage of surfaces like keyboards, equipment controls, elevator buttons or handles, aerosols like the Disinfectant Surface Cleaner and Spray Q Disinfectant are a great option. DIN registered and effective against many viruses and bacteria, including Influenza A, these aerosols offer a more easily transportable option for disinfecting.

- 866DIN Germicidal Surface Cleaner, 539 g
- CL1002 Spray Q Disinfectant, 482 g

Wipes

Hospital-grade quat formula that is bleach-free, alcohol-free and non-staining. DIN registered and fast-acting.

- 1567 Spec-4 Disinfecting Wipes, 180 wipes
